

# Fast-Track

## Teacher Prep Program

Introduction to Blended Learning Models

Instructional Best Practices in Blended Learning

Creating Digital Content for Blended Learning

Introduction to Open Educational Resources (OER)

2 Graduate Credits Available

iLearn Collaborative offers a pathway program for a *Qualified Blended Educator* certification.

24-32 PD Clock Hours & digital badge

The program is self-paced, and content is delivered via recorded content presentations, on-demand videos, and supplemental reading materials supporting just-in-time learning. Synchronous sessions for instructional support will be offered throughout the program. All content can be customized based on leadership and teaching positions within a school or district, and collaboration among colleagues is welcomed.

After engaging in our content,

### HERE'S WHAT TEACHERS WILL BE ABLE TO DO:

1

Design, develop, and deliver blended lessons based on the blended model or combination of models best suited for their learning environment

2

Effectively leverage technology for the purpose of building a digital curriculum

3

Promote self-directed learning through technology integration/ real-time data analysis (voice and choice, personalized learning/ student agency)
