

LANDSCAPE ANALYSIS

Strategic Insight for School Improvement

A high-impact opportunity to align your program with best practices, backed by national standards.

What is a Landscape Analysis?

A Landscape Analysis offers virtual program leadership teams a strategic, evidence-rich snapshot of their current instructional model, organizational structures, technology systems, and learning environment. Grounded in the National Standards for Quality Online Programs and local/state digital learning guidelines, this process supports system-level reflection and yields actionable recommendations for growth. Conducted by iLearn Collaborative (iLC), the Landscape Analysis is more than a report; it's a strategic roadmap for school improvement.

What You Receive

Each school receives a customized, leadership-ready report including:

- School/program profile & context
- Current state analysis (achievement, enrollment, learning culture)
- Stakeholder interview & survey insights
- Key commendations and improvement opportunities
- 3–5 strategic recommendations
- Report debrief session with your team
- (Optional) Implementation roadmap & support menu

What Part Do You Play?

Your leadership enables this process! Participating schools are asked to:

- Coordinate the site visit schedule
- Distribute stakeholder surveys (provided by iLC)
- Help gather artifacts and relevant documentation

Why Should Your School Participate?

External, Unbiased Perspective

Uncover strengths and challenges with help from experienced reviewers.

Research-Aligned Recommendations

Receive tailored steps you can act on right away.

Inform Strategic Planning

Use findings to shape improvement plans and innovation goals.

Highlight What's Working

Celebrate wins and share them with your community.

Foster Stakeholder Engagement

Include authentic feedback from students, families, and staff in decision-making.

A High-Impact Opportunity, Made Accessible

Through philanthropic partnerships and grant-funded initiatives, iLearn Collaborative is proud to offer this opportunity at no cost to select schools and districts
